MR. OWENS IS FOR GOOD ROADS.

The Commissioner Thinks The
Gap Should Be Built To
Brevard Line.

HUNDREDS ARE ANXIOUS FOR IT.

Every citizen on the east side of the
county is interested in the extension of
the Volusia county road south to the
Brevard county line, and citizens on the
west side of Brevard are likewise inter-
ested in the completion of Brevard's
road north from Titusville to connect
with Volusia's good roads.
This connection is too important to the
county to be left to be completed this
summer.

The Brevard County Commissioners
are a unit for voting an appropriation
for the building of their end of the road;
Commissioners Bradshaw and Owens, of
the east side of Volusia, have declared them-
selves, and it only remains for the three
commissioners removed from the coast
to say the word.

The completion of such road will en-
hance the value of property and help to
plant settlers where there is now ham-
mock, savannah and pineland flats
awaiting the settler; the transformation
of a waste region into groves, gardens
and pastures will more than repay its
cost. Why delay the matter?

The Daily News does not believe that
the Commissioners on the west side are
disposed to ignore the appeal for the
completion of this link. The Commis-
sioners appreciate the value of good
roads and at every meeting give evi-
dence of their interest in road improve-
ment and road extension; they are
handicapped it is true for lack of funds.
This important stretch will be built,
and other roads will be built as fast as
possible.

Good roads more than any other one
thing have placed Volusia in the front
rank of Florida counties, and Volusia is
going to maintain her lead.

Daily News readers will be interested
in a letter just received from County
Commissioner S. B. Owens in reply to a
letter addressed the Commissioner by
the editor of this paper. It reads:
"Oak Hill, Fla., 3-6-'09.

"T. E. Fitzgerald:
"Editor Daily News:—Your favor of
the second inst. was duly received and
contents noted and in reply will say the
present Board of County Commissioners
for this county is fully in harmony
with the good roads movement. The
southern part of our county, which hap-
pens to be in my district, has been
somewhat neglected along these lines
and there are parts of the road, which
at times, are impassable for autos.
This is true of the prairie across the
head of the Indian river, but I am in
hopes to make a good road at this when
the water dries out.

"Assuring you that I shall always be
ready for any thing in my power in this
respect. I am,
Yours truly,
S. B. OWENS."

To which statements from Commis-
sioner Owens hundreds of people will
say "Amen." A great many are of
opinion that the gap to the Brevard
county line is the most important unfin-
ished road inviting attention. The Daily
News hopes the County Commissioners
will think so too.

LOW TIDES ON THE RACING DAYS.

Statements Of Facts About Ocean
Tides You May Find Of
Interest.

WHY THEY VARY SO MUCH.

So many are planning ahead for the
races that the Daily News has already
been interrogated as to what hours the
tides will be low during racing days. It
may be of interest to say that the rac-
ing events will be held in the afternoon
during the racing season.

The races begin on Tuesday, the 23rd,
and with normal conditions the tide
ought to be low at 2:18 p. m. Low tide
comes about fifty minutes later every
day so on Wednesday, the 24th, it will
be low tide at 3:07 p. m., on Thursday
low tide at 3:57 and on Friday, the 26th,
at 4:47 p. m.

It is worth noting that conditions
may be out of the ordinary. If westerly
winds prevail the probability is tides
will run low, as westerly winds in con-
junction with neap tides invariably re-
sult in very low tides. In such event
racing might be indulged in the fore-
noon of the first and perhaps the second
day.

Should a north or northeast wind pre-
vail racing would be restricted to the
afternoon. This wind, however, would
in all probability give a good racing
beach.

Much depends upon the character of
the beach in smashing world's records.
If the winds and tides were to unite
diabolically and give the beach the
wash-board effect it sometimes does
there would be nothing doing in the
record-breaking life. It is hoped the
"weather man" will smile propitiously
and that everybody interested in the
racing game will get his money's worth.

TO HAVE CITY DIRECTORY.

A long-felt want is about to be sup-
plied in the form of a city directory. It
is high time that a city of Daytona's
size should have some definite means of
locating residents, as well for the con-
venience of those permanently located
here as for those only sojourning in the
city, for the place has grown to such
proportions that many of the towns-
people are not familiar with either the
names or places of residence of others.

An enterprising citizen of one of the
suburban towns, being awake to this
necessity, is now engaged in compiling a
directory of the city, which will also
contain some pages of general informa-
tion as well. The book is to be gotten
up in good shape and durable form,
being cloth bound. The revenue for its
issue must be in part derived from ad-
vertising pages, and it is thought that
the business men of the city will give it
their hearty support.

LOVELY CAMP CASSADAGA.

Dr. F. H. and Mrs. Houghton went
over to Cassadaga Camp, Lake Helen,
Saturday, and stayed till Monday and
were charmed with the entertainment,
the restful scene, and the many com-
forts.

Cassadaga is now in full swing with
faithful representatives of the "cult"
from every section of the North.

This spiritualist camp is composed
largely of old white heads who meet an-
nually and have the time of their lives.
Mrs. Brigham has the distinction of
having built the first cottage at the
camp, as she has at a camp at Lake
Pleasant, N. H., and at another camp.
Mrs. Brigham is up in the eighties,
yet very active, sprightly and adequate
She said to the Daytona visitors: "When
you come to my cottage open the door
and come right in; don't stand and
knock the paint off of my door"

Such free and openhanded hospitality
characterizes the camp and Dr. and Mrs.
Houghton are going back again. No
seance has yet been announced for the
Peck Block.

DO FIGURES EVER LIE?

Stories as to what property owners on
Ocean boulevard were willing to close
the ocean end and what others opposed
such closing have been rather conflicting.

In order to ascertain the exact situa-
tion a prominent Seabreeze real estate
man made a personal investigation and
canvassed of the boulevard with this result:
Persons for closing the boulevard own
2200 feet frontage.

Persons against closing the boulevard
own 1310 feet frontage.

Persons not heard from own 525 feet
frontage.

WIRES DOWN; LOCAL NEWS.

The Western Union Telegraph people
are playing in hard luck, it would seem.
Three times recently the Daily News tel-
egraph service has been missing.

The Daily News doesn't permit a
little thing like the loss of its telegraph
service to prevent its prompt daily ap-
pearance.

While its patrons are temporarily de-
prived of the latest earthquake news,
the happenings at Washington the at-
torneys' speeches at Nashville and the
night rider escapades, not to mention
the Haines-Thaw brain storm items, you
are assured the very latest, the cream of
all the happenings, at the prettiest re-
sort in Florida and speed news from the
seat of the fastest auto course in all the
world.

ARRANGING RACING PROGRAM.

A Number Of Appointments Of
Those Who Will Figure In
The Races—

SATISFACTORY PROGRESS MADE.

Entries are coming in daily for the
Seventh Annual Daytona Beach, Florida
Speed Contest, March 23-26. Yester-
day the entries of two Fords were made,
and today Paul LaCroix, American
manager of the famous Renault firm ex-
pects to send his entry for one or two
cars. Herbert Lytle telegraphed that
he would make an entry before Satur-
day, and the importers of the Benz cars
expect to make at least one nomina-
tion.

The question of referee was decided on
Saturday, when the position was offered
to and accepted by S. A. Miles, General
Manager of the National Association of
Automobile Manufacturers, who is one
of the best posted men in the United
States, and who has always interested
himself in racing affairs. In fact much
of the good in the present racing rules
was suggested by Mr. Miles, who will come
South this week and attend to some of
the preliminaries for the race meet at
Daytona. Fred J. Wagner, the famous
official starter of the Vanderbilt Cup and
Savannah races, will have charge of the
entries, and start them this year, which
is a guarantee that the events will be
run promptly and right.

R. F. Kelsey, Chairman of the Board
of Control of the National Cycling Asso-
ciation, will have charge of the score or
more of professional bicycle riders, who
will take part in cycling contests and
record trials. Ernest LaRue Jones,
editor of Aeronautics will superintend
the flying machine efforts, and is ex-
pected that the Motor A. Yachts will
show up well on the famous wide hard
beach. Earl Ovington, president of the
Federation of American Motorcyclists,
will act as Chairman of the Technical
Committee, and the motorcycle entries
includes the greatest number of fast ma-
chines ever entered. 20-horsepower Indian
racer by Chapple, who intends to chal-
lenge Bruce Brown, a well-known New
York amateur automobile driver, to a
race on the beach.

ASSESSOR'S BOOKS IN.

Assessor Edmondson has completed
his work on the tax list and turned it
over to the City Council who were to
have worked on it, equalizing assess-
ments, last night, but the council post-
poned work on the big book till this af-
ternoon when it is expected they will
spend a few hours going over the list and
will at least make a start.

Having performed this duty as best
they can they will give the general
public an opportunity to be heard,
should there be any who think their
assessments are too high.

PHILANTHROPIC PROGRAMME.

ORANGE CITY IS FIRE SWEEPED.

The Fire Fiend Consumes Choice
Buildings In The Central
District.

HARD BLOW TO PRETTY TOWN.

Yesterday afternoon about 2:30
o'clock the explosion of a kerosene lamp
in the drug store of Dr. Hill, Orange
City, started a fire which proved very
destructive, and but for the timely ar-
rival of the DeLand fire department
would have almost cleaned up this
beautiful little inland town.

From the drug store the flames spread
to other buildings and the Fenwick
House, several stores and residences
were consumed and as leaping flames
were carrying fire brands in every direc-
tion, firing distant buildings, it looked as
if the entire town were doomed. A call
to DeLand for the help of her fire de-
partment was responded to promptly,
and they soon had control of the situa-
tion and saved the day.

Several stores and about eight resi-
dences burned with a loss of fully \$20-
000. It is said that about \$5,000 in-
surance was carried.

Orange City has a standpipe and was
supposed to be well equipped to fight
fire, but it seems to have been wanting
in the necessary hose.

LANDS BIG STINGAREE.

Another big "stingaree"—this is the
way your Uncle Noah spells it, a few lo-
cal lexicographers to the contrary, not
withstanding—was caught at the ocean
pier again this week. It was a bigger
fish than the one caught a few days
previously. The dried skin would make
a fine roof for a bungalow house.

It was evidently the dejected and for-
lorn consort of the big stingaree—note
the spelling—recently caught. It is
said to have been captured by the
same man, but as it is a clear case of
fish suicide the captor deserves no espe-
cial credit for the big catch.

Its mate having been destroyed it
seems deliberately to have come and
swallowed the same hook in order to go
the same sad route.

These are two of the biggest speci-
mens of ray family ever captured here
and were viewed by many interested
tourists. These, with the huge porpoise
exhibited at the Yacht Club House have
been quite a show.

VAUDEVILLE TURNS TO TRAGEDY.

A Young Lady Riding a Bicycle
Meets With Accident On
Beach Street.

NO SERIOUS DAMAGE RESULTS.

There was an automobile-bicycle meet
yesterday afternoon at the corner of
Beach street and Volusia avenue which
resulted, fortunately, in no serious in-
jury to those concerned, although the
rider of the bicycle received a painful
bruise on the knee.

Miss Ethel Talbott, the young lady,
had rented a bicycle at the Daytona Bi-
cycle Livery and was riding northward
on Beach street. When in front of Han-
kins' drug store she met an automobile
just turning the corner from Volusia av-
enue and collided with it. As they came
together she let go her wheel and grasp-
ing the lamps on the machine was car-
ried along until the car was stopped,
which was within a few feet.

The bicycle, which went under the au-
tomobile, received some damage to the
front wheel.

The accident happened at one of those
times of congestion which occur on
Beach street when a number of car-
riages, bicycles and other vehicles are
bunched together.

Miss Talbott appeared not to blame
the driver of the auto, although she
thought he did not blow his horn until
after he had turned the corner, but both
the driver and another occupant of the
machine assert that the horn was sound-
ed as they were crossing from Volusia
avenue. They offered to take Miss Tal-
bott to her home but she declined as-
sistance.

Miss Talbott, who is temporarily lo-
cated on Orange avenue, was engaged in
the performances at the Crystal theatre
last week and remained here this week
for rest and pleasure. Her home is in
Baltimore, Md.

A Bridge Party.

Mrs. E. T. Merrill entertained at
Bridge Tuesday afternoon at her home
on South Ridgewood avenue.

There were eight tables of players. A
number of ladies joined them later and
partook of the delicious refreshments
served following the cards. The first
prize was captured by Mrs. F. N. Con-
rad, and Miss Newell carried off the sec-
ond prize.

MIDWINTER AT PALM BEACH, FLA.

The season at Palm Beach, Fla., is at its height in February, and at that
time the wealthy people of New York and the east flock to the famous resort.
This season the beach has had record breaking throngs, and the bathing and
fishing has been better than for many years. The man in the foreground with
the coat of tan is a type of the men who have a fad for sea bathing and never
lose the tan during the entire year, acquiring it at Atlantic City or Newport
in the early summer and replenishing it in Florida in the winter.

Beach
DAYTONA BEACH, March 10.—Mr.
Uebelhoefer, who was called to Brooklyn
some ten days ago on account of the
death of his sister, is expected to reach
home today.
Mr. and Mrs. Roy Wellman are plan-
ning a trip down the East Coast next
week. They are occupying Pleasant-
view cottage, and enjoying every day of
their stay on the beach.
Col. and Mrs. J. B. Minnis, of Knox-
ville, Tenn., who had expected to spend
their winter at The Clarendon, but ar-
rived after the burning, are enjoying
their winter on Ocean boulevard, and
are enough in love with the place and
its environments to buy property, if our
good hostilities were not so satisfactory.
This is their second or third winter at
Seabreeze.
Mr. and Mrs. Wellman walked to Or-
mond yesterday, dined at The Ormond,
and made the boat trip back.
Mrs. A. D. Norton and Mrs. Mary E.
Green, of Gloversville, N. Y., are guests at
Daytona Beach Hotel.
Thomas Oyama has just closed a deal
through J. C. Butler, real estate agent,
by which he becomes owner of the west
100x150 feet of Dr. VanValzah's lot, on
Seabreeze avenue. The consideration
was \$2,000 and other valuable consid-
erations. This is good property. It is
understood that Mr. Oyama will build
in the near future.
H. Y. Sullivan has purchased 800 feet
front on ocean, north of the Country
Club house, Seabreeze, from John B.
White, of Newberry, Fla. J. C. Butler
carried the deal through.
Benj. F. Martindale has bought the
northeast quarter of lot 4 block 3, Me-
mento, on Valley street, Seabreeze.
This is the lot known as the Billie Bag-
gett property, purchased from him a
few months ago by E. E. Austin. This
deal was also carried to successful issue
by J. C. Butler.
The real estate market is better this
season than ever before, and with a
steady demand for building rather than
speculative purposes.

News
SEABREEZE, Mar. 10.—Miss Eaves,
the capable and popular assistant at
the postoffice, being on the sick list J. C. El-
lia, who is spending the winter here, is
temporarily filling the place. Mr. Ellis
was a railroad postal clerk between
Cleveland and Syracuse for many years.
Mrs. Hison, of Defiance, Ohio, con-
cluded a pleasant week's visit with Mrs.
E. G. Stephens yesterday and returned
to Port Orange, where she is spending
the winter.
Mrs. Stephens will close her cottage
and return to Sanford tomorrow.
Miss Blakeslee has notified the post-
master here to hold her mail and friends
are expecting her arrival daily. She has
been spending the winter with a niece in
Virginia.
Everything on the beach is engaged
for race week and people are discussing
races with much interest.
The last report from last week's bar-
nazar is that the total proceeds amounted
to \$112. The expense to be deducted is
small and the showing most excellent
for the unselfish hand of workers.
School will be dismissed Thursday and
Friday to give the teachers an opportu-
nity to visit other schools.
By error it was mentioned on the first
page of the Daily News that L. Z. Bur-
dick had taken a contract to build a
house for C. Gillette. C. C. Gillette is

**The Modern
Seven Wonders**

Daytona's Incomparable Ocean Beach.
One of Daytona's crowning glories is
her incomparable beach. No one who
ever set foot upon its smooth, packed
sands; no one who ever pedaled a bi-
cycle over its expanse; no one who ever
drove a prancing pair of horses and lis-
tened to the popping of their steel shoes
upon its asphaltum-like face; no one
who ever steered a high-power, automo-
bile down the broad stretch of wave-
washed and surf-packed sand but real-
ized that it is a world-better, a world-
wonder. Go stand upon this wide
speedway and see the happy souls flit
by in joyous mood, and answer whether
this is not one of the seven modern
wonders.

The Placid, Pellicid Halifax River.
Where think you is water with more
picturesque surroundings? Nearly a
mile wide, fringed with tropical vege-
tation, artistic cottages with roomy ve-
randa's looking out upon her bosom,
gamey food fishes in countless numbers
beckoning, as it were, to those with rod
and reel; her bosom flecked with duck
and coot and snowy-winged sea birds,
which sit about as if for the sport of
bobbing upon her waves; watch that
lubberly old white headed pelican pout
a fat mullet, and that fish hawk sit-
ting upward with his floundering load
be snatched from the water.
See the beautiful launches, spick and
span, their hampers and lockers bulging
with refreshments both solid and li-
quid ready for a cruise upon her beautiful
surface. Take out your field glass and
sweep the river from Ormond bridge to
Ponce Park light house, then say
whether the Halifax isn't a thing of
beauty and a joy forever, and one of
the modern wonders.

The Enchantingly Picturesque Ridgewood.
Ridgewood avenue is upon the crest of
a broad ridge, straight as the crow flies,
and the wide-spreading branches of the
heavy-trunked live-oaks extend their
great arms across this magnificent vista,
forming an arch, and from these extend-
ing arms great festoons of Spanish moss
sway as the trade winds from tropic seas
fan them. Looking straight ahead down
this white shell street one has the im-
pression of a fairy path with elfish dra-
peries, but as you move along and cast
an eye first to the right and then to the
left you see distinguished cottage homes
in the most delightful settings.

Surpassing Beauty of Our Cottage Homes.
No one of Daytona's attractions, per-
haps commands more nearly universal
attention and praise than does the artistic
cottage. The owners of these charm-
ing villas hail from every corner of the
country and they bring their own archi-
tectural plans and build upon them, and
as the architecture of one section of the
country differs from the architecture of
another so do our homes differ in out-
ward appearance and structural beauty
from one another. There are no monotonous
rows of strikingly similar buildings
but the eye, as it sweeps by, is treated
to a kaleidoscopic change which keeps
the mind wondering "What next?"

Streets and Pavements the Most and Best.
Why the Architect of the Universe
chose to give to Daytona the most ad-
mirable, the most picturesque natural
setting of all the cities of the South is
not revealed but that such is a fact
must be apparent to the most superficial
observer. With such lavish wealth of
natural beauty it became an easy thing
for the hand of man to give the little
finishing touches which have brought
out the colors and outlines of the big
picture.

Man did all this in the laying out of
the streets with their wide margins of
parkage, the entire city becomes a
great park
And as for pavements, pavements
that look and act like granite,—where
else between the eastern and western
seas are so many miles in proportion to
inhabitants? Till some unheard-of
place reports more and better, Daytona
throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruits.
Whatever one's shortcomings and
however indifferent or even callous one
may be to many things, the mere men-
tion of "squirrels and flowers, birds and
fruits" will send a thrill that is reflected
in distended pupils and pricked ears.
For every visitor with a spare "goon-
ber" there is a bunny ready to come out
and accept your gift. He will sit bolt
upright and gnaw into the meat, casting
furtive, saucy glances at you meanwhile.
Flowers! Usually fresh and blooming
the year 'round. In one yard roses of
variegated hues predominate, another
has a penchant for the poinsettia and the
premises are aflame; another is hid-
den in a jungle of tall cane.
The birds flit in, and with their joyous
notes help to give fullness and symme-
try to the picture.
As for fruits, choice citrus fruits, Day-
tona yields the palm to none for quality
and quantity per acre. There are scores
of citrus groves in proximity to the city,
branches bending to the earth with their
burdens of luscious golden globes.

The Fastest Autos And The Finest Out.

Here is where world's records for speed
are broken with every recurring season.
Autos the biggest, the fastest and the
finest are on daily parade and the big
show is as free as the pure artesian
water from the thousand flowing wells.
It is a continuous show with constantly
shifting scene. You will probably catch
the spirit and when you do the roads
and the beach are yours. The Florida
sunshine is free, the balmy ocean
breezes are free, the birds and squirrels
and flowers are free, the sparkling
fountain water is free and you will have
to go down in your wallet only for coin
for the auto and bed and board.

This is no fanciful picture; it's all
here. It is drawing other thousands
and holding them enthralled, it will
charm and hold you. Come and see.

SHETLAND PONIES.

Active as Terriers, Sure Footed as
Mules, Patient as Donkeys.
Shetlands are "foaled in the fields,
live in the fields and die in the fields."
They have a rooted dislike for indoor
life and thrive best when allowed to
feed naturally on green grass, with
perhaps hay in winter. Until two
years old nature provides a soft, wool-
like covering. Afterward the mature
coat of hair appears, to be shed
each spring, when the ponies appear
sleek and handsome. Full grown
they are immensely strong, with wide
quarters, powerful legs and a great
width and depth over the heart and
lungs. And, as Benzie wrote in 1870
in his "Tour in Shetland": "The
Shetland pony is the most lovable of
animals in the wide creation. They
are sprightly and active as terriers,
sure footed as mules and patient as
donkeys. The horse is accredited as
the noblest of the lower animals, and
the Shetland pony stands at the head
of this noble race as the most intelli-
gent and faithful of them all."
The great value of the Shetland to
the coal miners lies in its ability to
work in the low galleries in thin
seamed pits, where other ponies could
not travel. Their strength does not
correspond with their diminutive pro-
portions, and they will travel thirty
miles a day in the seams, drawing
from twelve to fourteen hundred
weight. Underground their lot is
hard, but use becomes second nature,
and they are treated, if roughly, not
unkindly.—St. James' Gazette.

This Means You!" Bah Jove, how did

A party of guests from Schmidt's
Hotel were out on the river yesterday
on a fishing trip, being on a chartered
boat. When near Milcreek the engine
in their boat broke down entirely, and
they immediately hoisted a white signal
of distress.

Shortly after this the "Ernestine,"
with owner Stuenbord on board, came
along, but at first the signal was taken
as a joke. However, after revolver shots
had been fired the "Ernestine" came
back to those in distress and gave them
tow. It is unnecessary to say that a
long string of fish were secured. Those
in the party were: H. Enterman, John
Kaltre, Joseph Lambden and Mr.
Schwarzkopf.

Smyrna Figs.

Smyrna figs ripen by the beginning
of August. They are not picked, but
when they reach a certain maturity
they begin to dry, and consequently
they drop on the ground. In the morn-
ing everybody on the plantations goes
around with buckets gathering the
fruit, which they carry to a certain
place where the ground is covered
with dry leaves and straw (sergel)
and on which they spread the fruit,
exposing it to the sun, allowing it to
remain there from two to three days.
It takes about three days to dry the
fig if north winds prevail, as the at-
mosphere is then very dry. If, how-
ever, westerly winds are blowing,
which means heavy dew at night, the
fruit must remain exposed to the sun
from five to seven days. This is a
dangerous period, as rain or even a
shower might ruin hundreds of tons of
fruit lying on the ground. Heavy dews
sometimes are just as detrimental.
The proper atmospheric conditions to
insure a crop of large, sound, rich figs
are west winds in June and July, fol-
lowed by north winds in August, and
from then on an occasional west wind
every five or six days.

Knew Them at Once.
The vicar appointed to a living in an
old English village was anxious to re-
store his church. On either side of
the porch were grotesque, not to say
hideous, faces that had become almost
hidden. The vicar had these ancient
faces worked up until their features
were made distinct. Then he took a
very old lady of the parish to see
them and jokingly asked if she could
tell him who they were. "Why, bless
my heart, sir," said she, peering at the
old ornaments, "it's you and your good
lady!"

Not a Nursery.
"Before I got this job I had no idea so many funny things happened on street cars," said a new conductor, according to the Denver Post. "Every day I see and hear things that are amusing. For instance, a woman with a baby about two years old boarded my car and rode downtown. When we reached Fifteenth and California she rose to get off. The baby was tucked snugly in the corner of the seat. The woman hesitated in the aisle. 'Say,' she said to me, 'I'd like to ask a favor of you.'"
"What is it?" I asked.
"I've got some trouble to do," she said. "Would you please take baby around a trip with you? I don't want him with me. I'll be back when you return to this corner and take him."
"Madam, I replied, 'I can't take care of your baby. Suppose he should get to crying, as he undoubtedly would?'"
"Well, goodness me!" she said, "you could slap him, couldn't you?"

The Complete Alpinist.
The young millionaire had climbed the Jungfrau, Mont Blanc and Elger.
"It is more dangerous work than motorizing," he said, "and, dear me, how the climber is loaded down. He resembles a peddler more than anything else. He carries wood to make a fire with. He carries nails for his boots. He carries a lamp. He also has an ax wherewith to cut steps for himself in perpendicular ice walls, and he has a cord wherewith to rope himself to his companions and he has a staff to help him up and down the steep. In the sack on his back there are all sorts of things—tubes of concentrated soup, tea, coffee, candles, socks, extra shirts, gloves, pins, brandy, meat extract, smoked glasses. And dangling between his shoulders is a pair of snowshoes, without which in the hot August sun he would sink in the soft snow quite up to his knees at every step."—New Orleans Times-Democrat.

Bouncing Betsey.
There is an old fashioned flower called "Bouncing Betsey," which every one should love for one trait. We have noticed that it grows on old neglected graves, as if trying to cover up the fact that some one who once lived is forgotten. It may also be found in corners of old fashioned gardens, where it grows and blooms and protests against being pushed out entirely. There are some dear old fashioned people who suggest "Bouncing Betsey."—Aitchison Globe.

Her Latest Luxury.
"Young man," said the heavy father, "do you understand the style in which my daughter has been accustomed to live? She has always had every luxury she wanted." "And now I'm the luxury she wants," murmured the suitor.—London Globe.

Time's Changes.
"Before we were married you said you'd lay down your life for me," she sobbed.
"I know it," he returned solemnly, "but this confounded cat is so tiny there's no place to lay anything down."—Harper's Bazar.

A "Place of Learning."
Sydney Smith, once asked why a certain college was called a place of learning, replied that, although a great many had been there to get learning, no one had ever taken learning away; hence it was appropriately named.
